

Outdoor Classrooms

Unique Outdoor Learning Environments

The Lapa Company are experts in providing unique outdoor learning environments. Built to your schools individual requirements, each structure provides a sheltered space and can be used in all weather. Our shelters are ideal for teaching outdoors, creating a quiet area during lunch breaks, and playtime, an outdoor reading area or even a stage.

There is no limit to the size of the structure nor to the personalisation that can be made, such as bespoke furniture, bench seating, heating, multiple access points, outdoor cushions and more.

Previous projects include Reading Huts, Quiet Spaces, Amphitheatres, Playground Shelters and Outdoor Classrooms.

The Lapa Company UK Ltd

Unit 15, Orchard Place Business Centre, Seven Mile Lane, Borough Green, Kent TN15 8QU

Outdoor Classrooms

We understand that teaching outdoors is the perfect way to combine the natural environment with more practical learning and our building designs reflect this. Choose from our two unique ranges; Lapas, our traditional thatched buildings, and our modern gazebos finished in Thatch Tiles or Cedar Shingle Tiles, and find the structure that best suits your learning environment.

Included below are example projects completed across the UK. We are happy to provide exact replicas of these projects or create a unique space for your school. Simply let us know your requirements and we can provide an estimate for your needs.
