Shelter Kits

We supply our kits in three formats.

Option 1 - The first is the option to purchase the roof only. This kit includes 4 sections of roof framework plus all the thatch tiles required to complete the project. If you have your own uprights this is the perfect solution.

Option 2 - For a rustic finish we can supply our kits with the required number of rustic eucalyptus uprights. These poles are imported from Africa and give a superb authentic finish.

Option 3 - Finally we can offer a kit that includes premium machined timber uprights and a machined ring beam. This option gives you the flexibility of installing our range of drop down canvas side panels
